

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (**UK**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II Product Governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice and portfolio management, and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

Any person subsequently offering, selling or recommending the Securities (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR product governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five categories referred to in item 18 of the Guidelines published by the ESMA on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials"), has led to the conclusion that: (i) the target market for the Securities is retail clients, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**) and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA (**UK MiFIR**); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice and portfolio management, and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Any person subsequently offering, selling or recommending the Securities (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is

responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Where will the Securities be traded?

Admission to trading

The Securities are not admitted to trading.

What are the key risks that are specific to the Securities?

Most material risk factors specific to the Securities

There are risk factors which are material for the purpose of assessing the risks related to the Securities, including the following:

Risks relating to the market of the Securities

Trading of Securities in any secondary market may be limited and Holders may not be able to easily dispose of their Securities or to dispose of them at a price that provides a return comparable to similar products for which an active market would have developed.-

Risks as the creditor of the Issuer

A resolution procedure initiated at the level of the Crédit Agricole Group or any entity of the Crédit Agricole Group, or Amundi could result in a more rapid decline in the market value of the Securities. The exercise of any power under the BRRD or any suggestion of such exercise at the level of the Crédit Agricole Group or any entity of the Crédit Agricole Group could materially adversely affect the rights of the Holders, the price or value of their investment in the Securities and/or the ability of the Issuer, to satisfy its obligations under the Securities. As a result, Holders could lose all or a substantial part of their investment in the Securities and/or not receive the remuneration initially provided for.

Return on the Securities may be limited or delayed by the insolvency of the Issuer. The commencement of insolvency proceedings against the Issuer could have a material adverse effect on the market value of Securities issued. Any decisions taken by a class of affected parties could significantly impact the Holders of Securities and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

Absence of gross-up provisions under the Securities. The Issuer shall not be obliged to make any increased payment to compensate for any withholding or deduction relating to any Securities. Holders may receive less than the full amount due, and the market value of such Securities will be adversely affected. As a result, Holders could lose part of their investment in the Securities.

Risks relating to the structure of a particular issue of Securities

Risks relating to the redemption of the Securities:

The Securities are subject to automatic redemption upon the occurrence of an Automatic Early Redemption Event for their Automatic Early Redemption Amount. This may have an adverse effect on the value of the Securities and may lead to redemption at an amount or time less favourable for Holders, who may thus not receive the total amount of the capital invested.

Risks relating to Certificates :

There are no events of default under the Certificates.

No collective organisation of Holders, as each Certificate constitutes a separate claim and not form a Series. Holders of Certificates are not grouped into a masse or collective body with a view to protecting their interests. As a consequence, their interests may not be well represented and protected, which could have an adverse effect on the market value of the Certificates and could result in the Holders of Certificates losing part of their investment in the Certificates.

Risks relating to the relevant underlying of the Securities

Certain Factors affecting the value and the trading price of the Securities (price or value of the Underlying Reference, volatility of the Underlying Reference, remaining time, ...). As a result of all of these factors, any Holder who sells the Securities prior to the stated Maturity Date may receive an amount in the secondary market which may therefore be significantly less than the intrinsic market value of the Securities and which may also be less than the amount that the Noteholder would have received if the Holder had retained the Securities until the Maturity Date.

Risk of capital loss for Securities for which the indexation of the payment and/or redemption amount is determined based on a calculation formula and indexed to the Underlying Reference. In the event of an unfavourable change in the price, value or level of the Underlying Reference, or in the event of the occurrence of an unfavourable change in the price, value or level of the Underlying Reference or in the occurrence of or the absence of occurrence of an event affecting the Underlying Reference, the Holders may suffer a significantly decreased rate of return on the Securities or even no return whatsoever, could see the amounts of interest and repayment significantly negatively impacted and lose all or part of the capital initially invested.

Investment in Share Linked Securities may bear similar market risks to a direct equity investment. The market price of Share Linked Securities may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share, and the financial results and prospects of the issuer of the relevant share as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such share may be traded. As a result, Holders are exposed to the risk that changes in the relevant price of the share may have an adverse effect on the amounts of interest, early redemption or final redemption, if any, as well as on the value of Share Linked Securities.

The Holders of Physical Settlement Share Linked Securities may receive share(s) rather than a monetary amount upon delivery. Holders will, therefore be exposed to the issuer of such share(s) and the risks associated with such share(s). Under certain circumstances the share(s) may only have a very low value or may, in fact, be worthless, and as a consequence the Holders may lose the original invested amount. The value of Physical Settlement Share Linked Securities may be affected and/or their settlement may be delayed if in the opinion of the Calculation Agent, delivery of the share amount is impracticable because a special event has occurred and is continuing on the Delivery Date. This may have a negative adverse effect on the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal principal payable on redemption. As a result, Holders may lose all or part of their investment due to the occurrence of a special event.

Risk factors relating to specific features

Barrier: The payment of interest/redemption amount will be conditional on the value or performance of the Underlying Reference as determined in accordance with the Conditions applicable to the relevant Determination Date, being greater than or equal to a

<p>specified barrier value and if such condition is not satisfied then the amount of interest due will be zero and the redemption amount may be less than par. As a result, Holders may lose all or part of their investment.</p> <p><i>Automatic Early Redemption:</i> when the value and/or performance of the Underlying Reference at any Automatic Early Redemption Determination Date is greater than or equal to the Automatic Early Redemption Barrier Value, then an Automatic Early Redemption Event shall be deemed to have occurred and the relevant Issuer will redeem the Securities on the immediately following automatic early redemption date at a given percentage. Holders may receive less than anticipated and as a result could lose all or part of their investment.</p>
